PROFESSIONAL SUMMARY

Detail-oriented and reliable Computer Science student with strong programming skills in C, C++, and Java, along with expertise in web development. Having completed multiple web development projects, I am passionate about contributing to meaningful initiatives in dynamic and innovative environments. Highly motivated, with a proven ability to manage multiple priorities, I continuously enhance my skills through training and coursework. With a proactive approach to problem-solving and project management, I thrive in collaborative settings and seek a challenging role to leverage my technical and leadership skills for organizational growth and excellence.

SKILLS

- **Languages:** C, C++, Java, JavaScript, PHP, HTML, CSS
- **Frameworks:** Bootstrap, NodeJS, React.js, Angular
- **Tools/Platforms:** MySQL, MongoDB, XAMPP
- **Soft Skills:** Problem-Solving Skills, Project Management, Time management, Patience
- **AI & Machine Learning:** Prompt Engineering, Generative AI

TRAININGS

- **C++ Training Program** Since January 2025
Conducted by Hitbullseye through the University
 - **Covered topics:** Object-Oriented Programming (OOP), Pointers, Data Structures, Algorithms, and Advanced C++ Concepts.
 - Hands-on coding practice and problem-solving.
- **DSA Training Program** May 2024 – July 2024
Conducted by Board-Infinity
 - Completed hands-on training on fundamental and advanced DSA concepts, problem-solving, and algorithm optimization.

PROJECTS

- **Online Food ordering website**
For a Bakery, enhanced an online food ordering platform where users can browse dishes, add items to the cart, and place orders seamlessly.
Tech: HTML, CSS, JavaScript, Bootstrap, MongoDB, NodeJS. October 2024
- **Online Notes Sharing website**
Created a web-based platform that allows users to upload, share, and download notes, enhancing collaboration among students and professionals.
Tech: HTML, CSS, JavaScript, React, PHP and MySQL September 2024
- **HealthCare website**
In a Hackathon, Designed and implemented a healthcare web application featuring a chatbot, doctor appointment booking system, and a doctor's timetable for checking available slots.
Tech: HTML, CSS, JavaScript, Bootstrap, MySQL, NodeJS. September 2024
- **Jewelry website**
For a jewelry shop, developed an online jewelry store where users can browse products, add items to the cart, and complete purchases seamlessly.
Tech: HTML, CSS, JavaScript, Bootstrap, MongoDB, NodeJS. April 2024

CERTIFICATES

- Software Testing || NPTEL July 2024 – October 2024
- Server-Side JavaScript with NodeJS || Coursera January 2024 – May 2024
- Dynamic Programming Greedy Algorithms || Coursera January 2024 – February 2024
- Build AI Apps with ChatGPT, Dall-E, and GPT-4 || Coursera January 2024 – May 2024
- Data Structure and Algorithms || NeoColab August 2023 – January 2024
- C++ Programming || NeoColab August 2023 – January 2024
- WEB-A-THON (Hackathon) || Arena September 2024

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.16** Since September 2022
- **Jharkhand Commerce Inter College** Giridih, Jharkhand
Intermediate; **Percentage: 86%** April 2020 – April 2022
- **Parasnath Digambar Jain High School** Giridih, Jharkhand
Matriculation; **Percentage: 87%** March 2020
